

Bass

Lucy is 12 years old. She lacks confidence in herself. Other children at school make fun of her. The home she lived in was cluttered and had a strong smell of cat urine. In the past, her teacher had to wash and change her clothes due to the strong urine odor. This child has been abused and neglected. Lucy is very confused on what a healthy lifestyle entails. Not only has she suffered from physically and mental abuse, but she lack basic needs as well. All she wants for Christmas is an Easy-Bake oven and clean clothes. Decker is 14 years old. He and his younger sibling have suffered from neglect. His biological father has not been in his life. He considers himself the man of the house. He takes on most of the household responsibilities and goes without so his younger sibling is taken care of. When he turns 16 he wants to get a job. He says it's because him and his family lack income and he wants to make a change for all of them.
