

**Hackett**

The Hacketts are a growing family of five with another on the way. While Dad is working, Mom is home taking care of the kids, one of which has a few medical conditions that has compromised his immune system. With Dad being the only one able to work, it has made it difficult for the family to make ends meet. Ally is a 12-year-old, sassy girl who loves to be creative. Whether she's making crafts or beautifying herself with makeup, she always shows off her creative style. When she isn't being creative, she is sitting down with a good book and getting lost reading teenage fantasy stories. Karen is a nine-year-old girl who looks up to her bigger sister. Just like Ally, Karen loves to get crafty and paint. When she isn't painting, she is watching Monster High videos on YouTube. Four-year-old little brother Zain has a hard time playing outside for a long period of time due to his medical history. While inside, he watches Paw Patrol, PJ Masks, and Star Wars until you make him turn it off. He loves to play with cars and trucks. Zain builds with anything that he can find, so Legos would make a great gift.
