

Scott

This close-knit group of siblings has stuck together through some tough times. Their mother was in a serious car accident last November and spent a number of months in a nursing home for rehabilitation. Throughout it all, the group has worked hard to do well in school and keep up with their activities. Sarah is a senior in high school. She is looking forward to a career in child development and is doing an internship in a daycare center. She loves to watch Criminal Minds, curled up with a fuzzy blanket and warm hoodie. Megan is a talented young woman. She is a high-honor roll student who plans on attending Duquesne University to become an attorney to represent children in the child welfare system. She plays the guitar, loves art and enjoys reading. Daniel is diagnosed with autism. He has made a lot of progress in the last year and will begin at his school in January. He would like some new clothes for his new adventure in high school. He also loves anime, video games, Dragonball Z and My Little Pony.
